

SING SISTERS ANTHEM 2020

If you have a heart that's filled with music

and you like to sing a song or two

listen very carefully to we ladies

We'll happily sing a little tune for you

We love to sing a song

come on and sing along

The music fills your heart with love and joy

it is a sister hood it gets us in the mood

to share in fun and all of what we've got.

Even if you just sing in the shower
and no one is around to hear your voice

Sing with all your might and all your power

The feeling of it all makes us all rejoice

We love to sing a song

come on and sing along

The music fills your heart with love and joy

it is a sister hood it gets us in the mood

to share in fun and all of what we've got.

Music is what brings us all together

The choir is a happy family

Sing Sisters will live on for ever

Singing songs and notes in harmony

We love to sing a song

come on and sing along

The music fills your heart with love and joy

it is a sister hood it gets us in the mood

to share in fun and all of what we've got
